Founding Father’s Beer and World Poker Entertainment are proud to host the Heads Up For Vets Poker Tour at American Legions across the state of Minnesota. Players compete for nightly honors, prizes and for seats at Casino hosted Heads Up Cash events. In support of those who serve and have served, Heads up Poker can be run in any size bar at any time. All that matters is the bracket is completed and you have a winner. Then simply mail in the Bracket and Player Registration form. We track your player’s points on our website and they redeem for invites to a variety of Casino Hosted Heads Up Events to play for a **\$1,500 prize pool**. Each 16 player bracket winner is awarded enough points to redeem for an invite and 2nd through 4th place win points to build towards invites. Founding Father’s Beer donates half their profits to Military Families and each Legion host site will accept donations for vets during play as well. Players who qualify for Casino Hosted events will raise money through sponsorship programs and more. The Tour is ongoing and Casino events will constantly be added, so there is no time limit or bracket limit to the tour.

Brackets may be completed how ever the bar wants to and each bar can send in as many completed brackets as they want. All that matters is each bracket is played out to a final winner.

Point Tracking and Casino Event Entries via our Website:

Player points are compiled and displayed on our website as the Brackets are sent in. Players will have a selection of dates and locations to redeem for seats at Casino hosted events. Each event will award Cash and crown a champion. Player profile accounts are easily accessible via the website and through secure player username and passwords for players to update information, redeem for seats etc.

Military Divisions

The tour is open to the public for play and all may qualify for Casino hosted Cash Events. However, just to make things even more fun and competitive for the Legions, Military divisions will be tracked on the site as well. This allows for competitions hosted specifically for each branch of the Military and points tracking to create competitions between The ARMY, MARINES, NAVY, AIR FORCE and the COAST GUARD. Challenges will be created within regular play or through special Heads Up event nights pitting the Armed Forces against each other. These special events will be announced through out the tour.
